PROFILE

■ WHO WE ARE

We are a South African based non-profit organization. As a foundation is an organization setup solely for charitable purposes, so are we. However, every business and/or organization has it's own foundation. Our foundation as MM is Christ Jesus, the Lord of the Sabbath. He did a lot of righteous works while a human being. His works were similar to those Israel was instructed to do on Holy Sabbath, to break the yoke of injustice; set captives free and to do any other charitable work. The MM Foundation's mandate is to build through the works of Holy Sabbath, and any other form of contribution to the kingdom of God.

■ OUR MISSION

To contribute to the betterment of lives, specifically those who are under the yoke of injustice and captivity spiritually and otherwise.

PROFILE

■ OUR VALUES

We believe and therefore treat everyone we have dealings with as a client because our mandate is to the Lord. We aim to:

- Understand the client
- Treat each one as the only client
- Always conduct our business with integrity and confidential

■ THE DAY TO DAY

The hunger, the captivity and injustice is something that people are exposed to every day. As Christians, we can sometimes get carried away by our love for Christ and only draw people to the word of God by constantly preaching to them. However, Christ did not only teach to the people. A major part of His ministry was righteous works. We also dedicate time to such.

SOCIAL INVESTMENT

EDUCATE BLACK

- We have to eventually move from the space of pointing fingers to a point of implementing change in our lives in our own personal capacity. Yahweh gave us all an ability to create and a mind to seed, conceive and birth things into existence. This is what a black young individual needs to know, that they have the capacity and the ability to change their own lives and those of their families. We have implemented this program to assist youth below the age of 25 to realise this truth, to mentor them into successfully changing the view of disadvantage to total advantage. Nothing is ever an error for Yah, everything is an opportunity for something good if it is recognized as such.

WOMEN'S MENTORSHIP

- *but the woman is the glory of man. ~1 Corinth 11:7~*
Women have numerous labels that society has given them. However, in all of their behavior, they are showcasing the glory of a man. They were never created to form but to reflect - respond to and birth whatever is planted in their minds. Because of that nature, whatever label they have is a true reflection of the role of men in society. We mentor women under the program called '**the Ruths**' to help them realise and therefore enact their true value as women. It is about removing the responsibility from men to help women become true helpers and placing it back to Christ who has the true knowledge of who they are.

SOCIAL INVESTMENT

AID

- Out of one hundred families, 20% of them are struggling to meet their basic needs. We live in a society that promotes vanity as the best way to live. Of course everyone has a choice, but influence is called influence because it is a method that encourages people to make decisions and choices in a certain way. Everyone is born into a family, a family lives in a community, community forms a society, societies a nation and nations the world. Which means that no one is an island. Every individual's actions and choices influence someone whether in a good or bad way. This vain way of
- living encourages people to hide their needs. Basic needs are everyone's entitlement. Shelter, water, food and raiment are necessities for every individual. We have an increase in the number of street dwellers purely because most of them left their homes to find a way they could contribute to the wellbeing of their families, but never got to do such. Our effort is to ensure that at least 3 families in a chosen community have access to basic needs. In order to ensure that we don't promote an attitude of entitlement, we equip these homes with ways to help themselves better their lives.

WHY DO BUSINESS WITH US?

- Our aim is to be contributors in the success and growth of brands in different industries. We promote sustainable growth and brand management. We believe that managing the value and the reputation of the brand guarantees sustainability. That is why one of our core values is to ‘understand the client’. When you understand the client you understand the potential the brand carries.
- It is said that the first year of business operation determines the sustainability of the business. It is the year that gives the brand owner an understanding of the advantages and disadvantages of running an organization. It is also the period that allows the brand owner a choice to re-evaluate their options. We target brands that have surpassed this year and have made a decision to continue in business. Our target market is brands that want to grow from being individuals to formal organizations, as well as businesses that have been in existence for less than 2 years and still growing.
